(xxiii) The patented invention:

{ } Worked { ✓ } Not worked ¹

(a) ²

The invention comprises a signaling scheme that is awaiting endorsement by standardization bodies in order to be interoperable with other vendors' products.

(b) ³

(ii) ⁴

There is a cross license agreement between Ericsson and at least one licensee, giving mutual rights to produce despite monopoly afforded by patents that are hold by any of the companies. There is no information available on whether the technology of said patent is included in products sold by such licensee.

As all the licenses are confidential in nature, the details pertaining to the same shall be provided under specific directions from the Patent Office.
