**STATEMENT REGARDING THE WORKING OF THE PATENTED
INVENTION ON COMMERCIAL SCALE IN INDIA**

[See section 146(2) and rule 131(1)] (As Amended)]

In the matter of Patent No. **261068 (2734/DELNP/2008)** of 3rd May, 2007.

We Research In Motion Limited, a company organized and existing under the laws of the Canada, of 295 Philip Street, Waterloo, Ontario NWL 3W8, Canada.

The patentee(s) or licensee(s) under Patent No. **261068** hereby furnish the following statement regarding the working of the patented invention referred to above on a commercial scale in India for the year **2014**.

(i) The patented invention:

Worked ~~Not worked~~ [Tick (✓) mark the relevant box].

Patentee is a leading designer, manufacturer and marketer of innovative wireless solutions for the worldwide mobile communications market. Through the development of integrated hardware, software and services that support multiple wireless network standards, the patentee provides platforms and solutions for seamless access to time-sensitive information including email, phone, SMS messaging, internet and intranet-based applications. Patentee's technology also enables a broad array of third party developers and manufacturers to enhance their products and services with wireless connectivity. Patentee's portfolio of award-winning products, services and embedded technologies are used by thousands of organizations around the world (including in India) and include the BlackBerry® wireless platform, the RIM Wireless Handheld™ product line, software development tools, radio-modems and software/hardware licensing agreements.

This patent is among a large number of patents in the patentee's complex portfolio which may cover the products, services and embedded technologies provided by the patentee or its licensee(s) in India. This patent might be worked in India in some of the patentee(s) existing or future products, services and embedded technologies. Given the potentially large number of patents that may apply to any given product or service of the patentee, it is very difficult to identify and accurately update which of those patents would apply to the numerous products, services and embedded technologies.

~~(a) If not worked : reasons for not working and steps being taken for working of the invention:~~

(b) If worked : quantum and value (in Rupees), of the Patented Product:

(i) manufactured in India

(ii) imported from other countries. (give country wise details)

In view of the fact that the above patent is among large number of patents in the patentee's complex portfolio, which technology might include one of the products, services and embedded technology in India, it is difficult to quantify and value the patented product.

(ii) The licenses and sub-licensees granted during the year: *Information not readily available.*

(iii) State whether public requirement has been met partly/adequately/to the fullest extent at reasonable price: *Based on the above and according to the estimation of the patentee, the public requirement is being met to the fullest extent and at reasonable price.*

The facts and matters stated above are true to the best of my/our knowledge, information and belief.

Dated this 10th day of February, 2015
